

Project Initialization and Planning Phase

Date	20 Sep 2026
Team ID	Master of Computer Applications
Project Name	Online Learning Engagement and Student Performance Analysis
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	An educational institution or online learning platform administrator	Understand overall student engagement and academic performance and identify factors associated with	It is difficult to determine how learning activity, assessment performance, educational	Student-level learning data contains many different engagement and academic attributes that need to be analyzed together	Uncertain about which factors are associated with better or poorer academic outcomes

		student success and failure	background, region, and other student characteristics are associated with academic outcomes		
PS-2	An educational institution or online learning platform administrator	Analyze dropout patterns and identify students who may be at risk of dropping out	It is challenging to monitor dropout rates, pass rates, engagement levels, and differences among student groups	Dropout behavior may vary with engagement, academic performance, educational background, region, and other student characteristics	Concerned about identifying at-risk students early and supporting data-driven retention and intervention strategies
